

Hi Milind,

1. Yes - Newsletters
2. Definitely. Helps get an update and enables digging into specific issues we are involved in. Insights have also been useful in forming opinions.
3. At the cost, it is among the best. Perhaps some in vernacular will be more useful at local levels.
4. It is fine.
5. Consistent tracking of the situations.
6. Interface with alternate development models.
7. Yes, I do.

Best wishes  
Shekhar
